

RSNA[®]

Radiological Society
of North America

Value-based Radiology, a Change for the Better

Matthew A. Mauro, MD
RSNA President

STRATEGIC GOAL
Demonstrate and
raise awareness
of the crucial role
of radiology and
radiologists
throughout healthcare.

Journals,
Educational Offerings
Annual Meeting Program

Patient-Centric; Value-Based

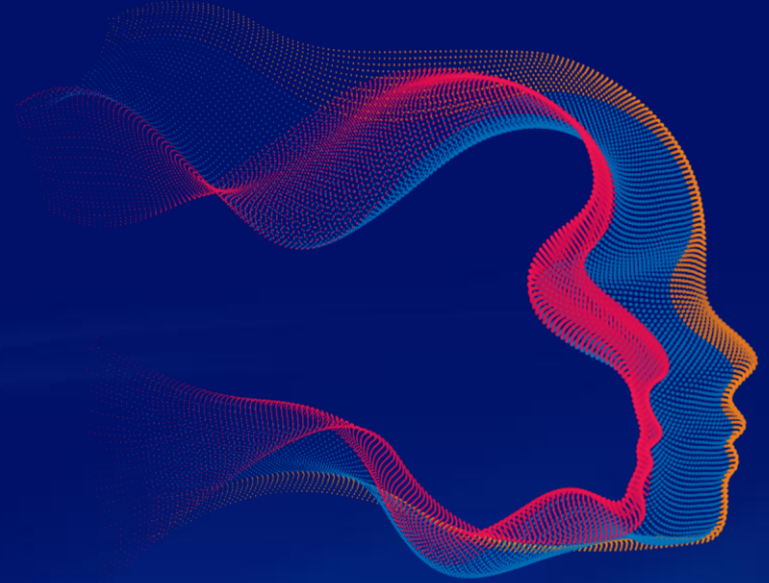

Tools to Succeed

Artificial Intelligence

AI will enable the radiologist to focus on the more impactful aspects of our work by assisting us with . . .

- *Prioritizing imaging studies*
- *Scheduling*
- *Reporting*
- *Repetitive tasks*

Embrace + Master practical and ethical integration

RSNA AI Challenges:

Screening Mammography
Breast Cancer Detection

RSNA AI Certificate Program

- Foundational
- Advanced

The RSNA annual meeting and online learning offer opportunities to enhance skills in interacting with patients, bringing more value to the radiologist's role on the healthcare team.

Patient interaction is lacking

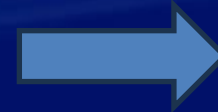

We can no longer simply chase volume

Elevate value to patients:

- Expertise
- Credibility
- Empathy
- Compassion
- Humanity

**On-Line
Educational
Center**

- *Educating patients through RadiologyInfo.org*
- *Educating residents on the importance of patient-centered care*
- *Focusing on healthy equity to address barriers to care*
- *Improving patient care around the world through RSNA Global Learning Centers*

ACGME Core Competency:
Patient-Centered Learning Set
Sensitize, Equip, Promote

South Africa, Tanzania,
Ecuador, Indonesia
